

Chrystian Ralf Calderon Quisbert

La Paz, Bolivia · www.linkedin.com/in/chrystian-calderon · +591 76248472 · chrystianralfc@gmail.com

I developed several projects, including a website for booking inflatable games for the company Rey Park. During my education, I created an attendance system using QR Codes, a frontend project inspired by a clothing store, and a sales management system for Helados Frutal. The latter was my graduation project to obtain the title of Senior Technician. In this project, I participated in the full analysis and development of the system, achieving the expected results and gaining practical experience.

EXPERIENCE

Inflatables Rey Park

December 2023 - March 2024

FullStack Developer

- Developed a web system for booking inflatable games and carousels, integrating a form and a map to locate reservations.
- Implemented a basic file management system, allowing users to add, edit, and delete images of registered games.
- Designed the site structure using the MVC pattern to enhance performance and optimize the efficiency of each PHP file.

Freelance

August 2023 - October 2023

FrontEnd Developer

- Developed a platform for displaying and managing announcements in a teacher training institution, differentiating files for the general public and teachers.
- Designed a responsive interface using only basic technologies to adapt the system for different devices.

EDUCATION

MAJOR UNIVERSITY OF SAN ANDRES

In progress

Informatic | Software Development and Technological Innovation

“PUERTO DE MEJILLONES” TECHNOLOGICAL INSTITUTE

November 2024

Computer Systems | Higher Technique in Systems Analyst

ORACLE + ALURA LATAM (One Next Education)

June 2023

BackEnd Java

KNOWLEDGE

- HTML5 | CSS3
- JavaScript and React
- Frontend and Backend programming for web design, including MySQL, ExpressJS, and PHP
- Web interface design using Figma
- Basic version control with Git

SKILLS

- Teamwork and collaboration
- Kanban workflow
- Adaptability
- Responsibility
